Effect of Thin-Film Bi/sub 2/O/sub 3/ Overlay on the Quality Factor of a Microstrip Resonator (Short Papers)

R.N. Karekar and M.K. Pande. "Effect of Thin-Film Bi/sub 2/O/sub 3/ Overlay on the Quality Factor of a Microstrip Resonator (Short Papers)." 1976 Transactions on Microwave Theory and Techniques 24.5 (May 1976 [T-MTT]): 262-264.

The effect of thin-film Bi/sub 2/O/sub 3/ overlay on a microstrip resonator has been studied. An improvement in Q suggests that lower radiation loss may be achieved in this manner.
