## Central Metal Post in Stripline Circulators (Short Papers)

---

A.M. Hussein, M.M. Ibrahim and S.E. Youssef. "Central Metal Post in Stripline Circulators (Short Papers)." 1977 *Transactions on Microwave Theory and Techniques* 25.2 (Feb. 1977 [T-MTT]): 150-152.

A central metal post of a suitable radius increases the bandwidth of a 3-port stripline circulator considerably. It helps to realize a compact circulator and gives more flexibility in the design.
