Components for Microwave Integrated Circuits with Evanescent-Mode Resonators (Dec. 1977 [T-MTT])

K. Schunemann, R. Knochel and G. Begemann. "Components for Microwave Integrated Circuits with Evanescent-Mode Resonators (Dec. 1977 [T-MTT])." 1977 Transactions on Microwave Theory and Techniques 25.12 (Dec. 1977 [T-MTT] (1977 Symposium Issue)): 1026-1032.

The electrical performance of active microwave components for radio link systems, which have been realized utilizing evanescent-mode resonators, is described. This waveguide-below-cutoff technique is shown to be an alternative to the techniques established before now.
