## Some Aspects of Microwave Development in a Developing Country

---

J.T. Senise. "Some Aspects of Microwave Development in a Developing Country." 1975 MTT-S International Microwave Symposium Digest of Technical Papers 75.1 (1975 [MWSYM]): 34-36.

The development of modern telecommunications systems is a major factor of progress in countries experiencing a fast economic growth. General information is given on the recent development of microwave systems and of microwave activities in general in Brazil.
