Wideband Electronically Tuned Millimeter-Wave IMPATT Oscillators

C. Chao, Y. Chang, E. Benko and H.J. Kuno. "Wideband Electronically Tuned Millimeter-Wave IMPATT Oscillators." 1975 MTT-S International Microwave Symposium Digest of Technical Papers 75.1 (1975 [MWSYM]): 264-265.

Development and characterization of wideband, low-noise electronically tuned IMPATT diode oscillators in millimeter-wave frequencies are described.
