## Implementation of a Military Digital Microwave System

---

*G. Lippencott, H. van Gelder and P. Villasenor. "Implementation of a Military Digital Microwave System." 1976 MTT-S International Microwave Symposium Digest of Technical Papers 76.1 (1976 [MWSYM]): 74-76.*

A discussion on the Army FKV 192 channel digital microwave system now operational. First such system designed for military operation. Includes: 1) System description; 2) engineering criteria; 3) maintenance philosophy; 4) technical problems encountered; and 5) long-term performance assessment.
