Measurement Systems to Display $\text{Re}(z/\text{sub s. t./})$ of Singly Terminated Filters

W.G. Erlinger. "Measurement Systems to Display $\text{Re}(z/\text{sub s. t./})$ of Singly Terminated Filters." 1977 MTT-S International Microwave Symposium Digest 77.1 (1977 [MWSYM]): 412-414.

Two measurement systems to display the real part of singly terminated filters are presented. Both systems utilize test equipment standard to most microwave laboratories. The theory of operation and measurement errors are discussed for both systems.
