The Measurement of Noise in Microwave Transmitters (Comments) (Jan. 1979 [T-MTT])

R. Knochel, K. Schunemann and B. Schiek. "The Measurement of Noise in Microwave Transmitters (Comments) (Jan. 1979 [T-MTT])." 1979 Transactions on Microwave Theory and Techniques 27.1 (Jan. 1979 [T-MTT]): 84-85.

In the recent paper, "The Measurement of Noise in Microwave Transmitters," J. R. Ashley et al. give a review of several methods for the measurement of AM and FM noise, respectively. The section, which deals with FM noise measurements at frequencies below 5 GHz, may be the source of erroneous conclusions, as will be pointed out in this comment.
