A Broadband Frequency Divider in Waveguide

R.G. Harrison. "A Broadband Frequency Divider in Waveguide." 1978 MTT-S International Microwave Symposium Digest 78.1 (1978 [MWSYM]): 257-259.

A new waveguide configuration permits the construction of a completely symmetrical balanced varactor frequency divider. The example described translates the full 12.4 to 18.0 GHz waveguide band down to the range 6.2 to 9.0 GHz.
