A Simple Method for Analyzing Fin-Line Structures (1978 MWSYMJ)

A.M.K. Saad and K. Schuenemann. "A Simple Method for Analyzing Fin-Line Structures (1978 MWSYMJ)." 1978 MTT-S International Microwave Symposium Digest 78.1 (1978 [MWSYMJ]): 405-407.

A simple description of fin-line circuits is introduced by establishing a correspondence between rectangular waveguides and a fin-line. The usefulness of the method is demonstrated by designing a bandpass filter.
