## Phasing Type Image Recovery Mixers

---

*T.H. Oxley. "Phasing Type Image Recovery Mixers." 1980 MTT-S International Microwave Symposium Digest 80.1 (1980 [MWSYM]): 270-272.*

This paper discusses the design of double balanced mixer circuits to effect image rejection, with the potential of low noise performance by recovery of image power. Performance of circuits at S, X and J(Ku) -bands is described.
