Transmission Loss of the Double-Strip Modified H Guide at 50 GHz (Short Papers)

M. Kawamura and Y. Kokubo. "Transmission Loss of the Double-Strip Modified H Guide at 50 GHz (Short Papers)." 1980 Transactions on Microwave Theory and Techniques 28.4 (Apr. 1980 [T-MTT]): 430-432.

A double-strip modified H guide has been theoretically and experimentally investigated at 50 GHz. The potential applications of this guide as a low-loss transmission line are discussed.
