Single-Sideband Mixers for Communications Systems

B.R. Hallford. "Single-Sideband Mixers for Communications Systems." 1982 MTT-S International Microwave Symposium Digest 82.1 (1982 [MWSYM]): 30-32.

Two types of balun-coupled single-sideband (SSB) mixers suitable for communications systems will be presented in their equivalent circuit and RF planar configuration. A 6-GHz SSB mixer model will be fully described.
