Foreword (Dec. 1983 [T-MTT])

H.J. Kuno. "Foreword (Dec. 1983 [T-MTT])." 1983 Transactions on Microwave Theory and Techniques 31.12 (Dec. 1983 [T-MTT] (1983 Symposium Issue)): 1065-1065.

It is evident to those connected to microwave and millimeter-wave technology that monolithic integrated-circuits technology has become increasingly vital to the development of various systems operating at microwave and millimeter-wave frequencies. A great deal of active effort is currently directed towards integrated-circuits technology and rapid progress is being made.
