## Session 6 Introduction (1984 [MWSYM])

---

A. Rosen. "Session 6 Introduction (1984 [MWSYM])." 1984 MTT-S International Microwave Symposium Digest 84.1 (1984 [MWSYM]): 131-131.

Many excellent contributions in the area of microwave hyperthermia treatment of cancer and radiation measurement techniques can now be found by scanning both the IEEE MTT transactions and the MTT meeting Proceedings. The title of this year's meeting, Biomedical Pets of Microwaves, has been changed from Microwave Biological effects to reflect the type of paper which this meeting has attracted.
