## Optical Injection Locking of BARITT Oscillators (Comments)

---

*A.J. Seeds and J.R. Forrest. "Optical Injection Locking of BARITT Oscillators (Comments)." 1985 Transactions on Microwave Theory and Techniques 33.4 (Apr. 1985 [T-MTT]): 343-344.*

We were interested to read the above short paper, but would like to point out that experimental results on the optical injection locking of IMPATT oscillators have indeed been obtained. Over the last few years, reports of such experiments have appeared in the literature from groups in both Europe and the U.S.A.
