Compact High Power Wide Band Coupler

H.F. Chapell. "Compact High Power Wide Band Coupler." 1990 MTT-S International Microwave Symposium Digest 90.1 (1990 Vol. I [MWSYM]): 589-591.

A technique is given to realize compact, broadband, high power TEM couplers. The basic approach is the summing of more than one signal to correct the 6 dB per octave slope of short TEM couplers.
