## A Rapid Channel Detection System for EW Receivers

---

*R.G. Ranson and S.G. Gibbons. "A Rapid Channel Detection System for EW Receivers." 1990 MTT-S International Microwave Symposium Digest 90.2 (1990 Vol. II [MWSYM]): 961-963.*

A new subsystem is described that combines microwave circuits with digitized processing to provide ultra fast frequency information in a form suitable for integration into more complex receiver systems.
