p-i-n Diode Attenuator with Small Phase Shift (Additional Comments and Reply)

J.P. Starski, B.M. Albinsson, T.B. Vu, K.W. Lo, R.J. Baeten, T.K. Ishii and J.S. Hyde. "p-i-n Diode Attenuator with Small Phase Shift (Additional Comments and Reply)." 1989 Transactions on Microwave Theory and Techniques 37.10 (Oct. 1989 [T-MTT]): 1658-1659.

The above paper, by Baeten et al., and the subsequent comments by Lo and Vu were both published considerably later than our work. The work described by Lo and Vu is very similar to our project for an absorptive attenuator with optimized phase response, which was done in 1983 and published in 1984.
