Recent Advances in Gyrotrons and Free Electron Lasers (Invited Talk)

R.J. Temkin. "Recent Advances in Gyrotrons and Free Electron Lasers (Invited Talk)." 1987 MTT-S International Microwave Symposium Digest 87.1 (1987 Vol. 1 [MWSYM]): 503-505.

The status of gyrotrons and free electron lasers operating at microwave, millimeter wave and submillimeter wavelengths is reviewed. These novel, fast wave devices are making rapid progress, opening up a variety of new applications.
