The Scattering Parameters and Directional Coupler Analysis of Characteristically Terminated Asymmetric Coupled Transmission Lines in an Inhomogeneous Medium (Corrections)

K. Sachse. "The Scattering Parameters and Directional Coupler Analysis of Characteristically Terminated Asymmetric Coupled Transmission Lines in an Inhomogeneous Medium (Corrections)." 1991 *Transactions on Microwave Theory and Techniques* 39.7 (Jul. 1991 [T-MTT]): 1252-1252.

Haste in preparing the above paper unfortunately entailed certain errors in equations (3), (6), (10a), (11), and (12). These consist in either a change of sign or index or omission of terms in the expressions.
