## Guest Editors' Overview (Dec. 1994, Part II [T-MTT])

---

*P.K.L. Yu, P.A. Asbeck and I.J. Bahl. "Guest Editors' Overview (Dec. 1994, Part II [T-MTT])." 1994 Transactions on Microwave Theory and Techniques 42.12 (Dec. 1994, Part II [T-MTT] (1994 Symposium Issue)): 2348-2349.*

The 1994 International Microwave Symposium (IMS) and Microwave and Millimeter-Wave Circuits Symposium (MMWMCS) was held at the spacious San Diego Convention Center during May 23-27, 1994. This Special Issue of the Transactions is intended to provide the Transaction readership with an overview of the latest advances presented at the Symposia. However, due to the strict page allocation, the papers presented at the meeting are thus not contained in this issue; moreover, other expanded papers whose reviews and revisions could not make the strict deadline for this issue are also not presented here, but are expected to appear in forthcoming regular issues of the Transactions. Of the 110 IMS and 17 from the MMWMCS papers submitted for publication from IMS and 17 from the MMWMCS only 36 and 8 respectively are published in this Special Issue. The Guest Editors wish to thank all the authors who submitted papers for the issue.
