## Introduction to Special Issue on Microwave and Millimeter Wave Photonics

---

*P.R. Herczfeld, H. Ogawa, A.A.A. de Salles, A. Seeds and R.S. Tucker. "Introduction to Special Issue on Microwave and Millimeter Wave Photonics." 1995 Transactions on Microwave Theory and Techniques 43.9 (Sep. 1995, Part II [T-MTT] (Special Issue on Microwave and Millimeter Wave Photonics)): 2181-2183.*

The Rapid evolution of photonics and microwave and millimeter wave electronics and their related technologies is resulting in new device developments and novel system configurations. The interface between microwaves and millimeter waves on the one hand and lightwaves on the other is an area of growing interest with a broad range of emerging applications. This Special Joint Issue of the IEEE Transactions on Microwave Theory and Techniques and the Journal of Lightwave Technology is devoted to Microwave and Millimeter Wave Photonics.
