Microwave Opto-Electronics in Europe

A.J. Seeds. "Microwave Opto-Electronics in Europe." 1992 MTT-S International Microwave Symposium Digest 92.2 (1992 Vol. II [MWSYM]): 749-752.

The field of microwave opto-electronics is one of intense research interest in Europe. In this paper recent developments in components, sub-systems and applications are reviewed. Particular attention is given to work on coherent systems for signal generation and processing and to the impact of optical amplifiers on microwave opto-electronic system design.
