On the Nature and Application of the Space Spectral-Domain Approach (SSDA)

M. Yu, R. Vahldieck and K. Wu. "On the Nature and Application of the Space Spectral-Domain Approach (SSDA)." 1994 MTT-S International Microwave Symposium Digest 94.2 (1994 Vol. II [MWSYM]): 591-594.

This paper describes the equivalence between the Spectral Domain Method (SDM) and the Method of Lines (MoL). On the basis of this equivalence the Space-Spectral Domain Approach (SSDA) can be explained as either a two dimensional SDM or a two-dimensional MoL.
