Aluminum Silicon Carbide for High Performance Microwave Packages

J.L. Bugeau, K.M. Heitkamp and D. Kellerman. "Aluminum Silicon Carbide for High Performance Microwave Packages." 1995 MTT-S International Microwave Symposium Digest 95.3 (1995 Vol. III [MWSYM]): 1575-1578.

Aluminum silicon carbide is rapidly becoming the material of choice for high performance microwave packages. This paper presents the results of extensive research performed to evaluate the integrity of aluminum silicon carbide for electronic packaging applications.
