## Present and Future of Mobile Communications in Japan (Invited Paper)

---

*M. Morishima. "Present and Future of Mobile Communications in Japan (Invited Paper)." 1993 Microwave and Millimeter-Wave Monolithic Circuits Symposium Digest 93.1 (1993 [MCS]): 3-6.*

In Japan, mobile communication subscribers have been increasing rapidly, in specialy cellular telephone, radio paging, trunked system (called MCA) and cordless phone. The digital cellular service is going into operation in the spring of 1993. The digital cordless telephone, digital trunked system and future public land mobile telecommunication system (FPLMTS) are now been considered.
