

Non-Linear System and Subsystem Modelling in the Time Domain

M.I. Sobhy, E.A. Hosny, M.W.R. Ng and E.-S.A. Bakkar. "Non-Linear System and Subsystem Modelling in the Time Domain." 1996 MTT-S International Microwave Symposium Digest 96.3 (1996 Vol. III [MWSYM]): 1755-1758.

This work describes how non-linear subsystems can be modelled from time domain measurements. The advantage being the simplicity of the measurement and the developed models and the speed of the simulation of the entire system.
