Analysis of asymmetric coplanar waveguide with conductor backing

*Shao-Jun Fang and Bai-Suo Wang. "Analysis of asymmetric coplanar waveguide with conductor backing." 1999 *Transactions on Microwave Theory and Techniques* 47.2 (Feb. 1999 [T-MTT]): 238-240.*

This paper presents an analysis of the asymmetric conductor-backed coplanar waveguide by means of conformal mapping techniques. The effective permittivity, characteristic impedance, and electric-field strength are given. The field patterns are also plotted.
