Comments on "A new model of generalized inverter and its applications" (May 1999 [T-MTT])

R. Levy. "Comments on "A new model of generalized inverter and its applications" (May 1999 [T-MTT])." 1999 *Transactions on Microwave Theory and Techniques* 47.5 (May 1999 [T-MTT]): 655-659.

For the original paper see *ibid.*, vol. 45, no. 1. p. 132-5 (1997). The commenter considers that the generalized impedance inverter described in the aforementioned paper with associated theory is essentially identical to that published by him previously (see *ibid.*, vol. 21, no. 8, p. 519-26, 1973).
