On the line-integral formulation of mode-matching technique

G. Figlia and G.G. Gentili. "On the line-integral formulation of mode-matching technique." 2002 Transactions on Microwave Theory and Techniques 50.2 (Feb. 2002 [T-MTT]): 578-580.

In this paper, a brief description of the line-integral formulation of mode matching is recalled, and the analysis is extended to the case of a TEM mode, normalization integrals, and degenerate eigenvalues.
