Microwave industry outlook - who will develop the wireless communication products of the 21st century?

L. Besser. "Microwave industry outlook - who will develop the wireless communication products of the 21st century?." 2002 Transactions on Microwave Theory and Techniques 50.3 (Mar. 2002 [T-MTT] (50th Anniversary Issue)): 1042-1043.

The growing demand for wireless professionals is not matched by the preparation of RF and microwave engineers. A joint action of industry and academia, possibly coordinated by the IEEE, is needed to prevent serious engineering manpower shortage in the future.
