Microwave Satellite Communications/Navigation Contributions in the San Francisco Bay Area - A Historical Perspective

J.J. Spilker, Jr.. "Microwave Satellite Communications/Navigation Contributions in the San Francisco Bay Area - A Historical Perspective." 1996 MTT-S International Microwave Symposium Digest 96.1 (1996 Vol. 1 [MWSYM]): 215-215.

Microwave satellite communications and GPS satellite navigation are proving to be of great value. Much of the new advancements in wireless digital communications being made now had their foundations years ago in digital satellite communication for the military. Likewise, probably the most important commercial product of the Cold War is the US GPS navigation system.
