## Analysis of ground bond wire arrays for RFICs (1997 Vol. II [MWSYM])

---

*H. Patterson. "Analysis of ground bond wire arrays for RFICs (1997 Vol. II [MWSYM])." 1997 MTT-S International Microwave Symposium Digest 2. (1997 Vol. II [MWSYM]): 765-768.*

This paper outlines a method for rapid computation of the inductance of arrays of ground bond wires for RFICs, thus saving a designer considerable time over using inaccurate empirical equations or slowly converging electromagnetic simulators. Results comparable in accuracy to a fully derailed PEEC electromagnetic simulation are shown.
