## Reconstruction of the S-Matrix for a 3-Port Using Measurements at Only Two Ports (Comments)

---

J.C. Rautio. "Reconstruction of the S-Matrix for a 3-Port Using Measurements at Only Two Ports (Comments)." 1996 *Microwave and Guided Wave Letters* 6.4 (Apr. 1996 [MGWL]): 183-183.

The author of the above letter is to be complimented on finding a closed form solution to the set of bilinear transforms which transform correct S-parameters of a three-port device into the imperfectly terminated two-port S-parameters usually measured. However, readers of his paper might also benefit from work previously published in this area.
