A retrospective on the 1999 Microwave Pioneer Award

R.L. Eisenhart and P.J. Khan. "A retrospective on the 1999 Microwave Pioneer Award." 1999 MTT-S International Microwave Symposium Digest 99.4 (1999 Vol. IV [MWSYM]): 1617-1620 vol.4.

This presentation looks back at the paper that was the basis for selection of the 1999 Microwave Pioneer Award. The subject is an often used waveguide circuit, commonly referred to as a "Post in a waveguide". The discussion focuses on understanding the equivalent circuit and the measurement technique developed to verify the results.
