

**Leonard Lewin**  
**Microwave Prize Winner**

**The Institute of Radio Engineers**  
Professional Group on Microwave Theory and Techniques  
1962 Microwave Prize

to  
**Leonard Lewin**

for a very significant contribution to the field of endeavor of the IRE-PG-MTT in his paper entitled, "On the Resolution of a Class of Waveguide Discontinuity Problems by the Use of Singular Integral Equations", published in the IRE TRANSACTIONS MTT-9 No. 4, pp. 321-332, July, 1961. The paper was an exceptionally well written and useful treatment of an important subject.
