BOULDER MILLIMETER WAVE AND FAR INFRARED CONFERENCE

The Boulder Millimeter Wave and Far Infrared Conference will be held August 30, 31, and September 1, 1965 at the Stanley Hotel, Estes Park, Colorado.

The topics of the Conference will be:

Generation	Spectrographic Techniques
Detection	Quantum Phenomena and Masers
Transmission	Measurement Techniques
Astronomy	Systems

This Conference will be a sequel to the 1963 Orlando, Florida Meeting. It will attempt to bring together both engineers and physicists to review developments and applications in this field.

The Conference is sponsored by the:

National Bureau of Standards: Radio Standards Laboratory
 Institute of Electrical and Electronics Engineers:
 Group on Microwave Theory and Techniques
 International Scientific Radio Union (URSI): U. S. Commission 1
 With the assistance of the Bureau of Continuation Education, University of Colorado, Boulder.

Estes Park is a resort town in the Rocky Mountains (altitude 7500 feet), situated in a valley at the eastern edge of Rocky Mountain National Park—about 70 miles northwest of Denver and 40 miles northwest of Boulder.

Copies of the program, registration form, and information on the local area are now available from:

Bureau of Continuation Education
 328 University Memorial Center
 University of Colorado
 Boulder, Colo. 80304

ELECTRICAL INSULATION CONFERENCE

The Conference on Electrical Insulation of the National Academy of Sciences—National Research Council, will hold its annual meeting at The Inn, Buck Hill Falls, Pennsylvania, on October 25, 26, and 27, 1965. For further information write to:
