

Announcement

SPECIAL ISSUE ON ACTIVE AND DIGITAL NETWORKS

During the last quarter of 1971, there will be a special issue of the IEEE TRANSACTIONS ON CIRCUIT THEORY devoted to the general areas of active and digital networks. The special issue will contain invited and submitted tutorial, state-of-the-art, and research papers on active networks employing lumped or distributed elements, digital filters, digital systems, and other related topics such as switched filters and general properties and techniques for analysis of networks of semiconductor devices.

Papers (prepared in accordance with the usual PTG-CT format) and suggestions should be submitted by February 1, 1970, to the guest editor:

I. W. SANDBERG
