**Peter Affolter** (S'70) was born in Bern, Switzerland, on August 19, 1938. He received the diploma in electrical engineering from the Hoehere Technische Lehranstalt, Biel, Switzerland, in 1963, and the diploma in applied physics and the Ph.D. degree, both from the University of Basel, Switzerland, in 1969 and 1972, respectively.

In 1964 he worked at Swiss Isola's Physical Laboratories, Breitenbach, Switzerland. In 1969 he joined the Brown Boveri Central Laboratories, Baden, Switzerland. As a member of the High Frequency Electronics Group, he does theoretical and practical studies on microwave filters and microwave technology.

Dr. Affolter is a member of the Swiss Physical Society.

**Baldur Eliasson** was born in Reykjavik, Iceland, on October 10, 1937. He received the M.Sc. degree in electrical engineering in 1962, and the Ph.D. degree in microwaves and electromagnetic wave theory in 1966, both from the Federal Institute of Technology in Zurich, Switzerland.

From 1966 to 1969 he was a Research Fellow in radio astronomy at the California Institute of Technology. In 1969 he joined the Brown Boveri Research Center in Baden, Switzerland. As a member of the Coherent Optics Group, he does theoretical studies on the propagation and scattering of light.

Dr. Eliasson is a member of the Optical Society of America and the Swiss Physical Society.
