

SOLID STATE MICROWAVE DEVICES  
RUMP SESSION

8:00 P.M. (Lincoln)

L. Eastman, Chairman

This session will cover very recent achievements and new technological information leading to the achievements. Speakers from the sessions on Solid State Microwave Sources, Low-Noise Receivers and Solid State Power Amplifiers will be encouraged to

expand informally on their results. In addition, other experts at the meeting will be encouraged to add any remarks. Lively discussion on the best methods of approach and the meanings of the results will all be in keeping with the informality of this session.

NOTES
