

A CORDIAL INVITATION TO APPLY FOR IEEE MEMBERSHIP...

In the booklet pictured below is information about the many and varied activities of the Institute of Electrical and Electronics Engineers—the world's largest engineering Society.

This is a volunteer organization; thus, its growth and prestige stem from enthusiastic effort, professional skills, and support of the members.

IEEE is not for everyone; it is for those who qualify for various grades and are genuinely interested and dedicated to improving the understanding of electrical and electronics engineering and its application to the needs of society.

If you are interested in the technical, professional, and personal advantages of IEEE membership, you are cordially invited to write for this booklet, which provides just about everything you'll want to know. It also includes an application form.
