

Our IEEE periodicals have only one competitor as an information source in electrotechnology.

Electrooptics...bubble technology...image processing...large-scale integration...the microprocessor. With new electrical/electronics engineering breakthroughs on all fronts, keeping up to date is a formidable task for today's engineer.

Our 33 IEEE technically specialized Societies and Councils—and many of our geographical entities—help meet this problem head-on by regularly sponsoring local, regional, national, and international conferences where the state of the art in a special subject is covered in depth by experts from industry, government and academe.

In printed and microfiche editions.

Of the literally hundreds of such meetings yearly, we classify some 100 as "major", and generate a printed Conference Record or Digest of the proceedings. Each publication is also available in a space-saving microfiche edition—at a 50% discount when purchased along with the printed edition.

Our IEEE conference publications provide vital, first-hand information in a subject range as diverse as the names of our Societies and Councils.

From Acoustics to Vehicular Technology.

For example: *International Solid-State Circuits Conference...National Aerospace & Electronics Conference...National Telecommunications Conference...Oceans...International Electron Devices Meeting...COMPCON (Spring and Fall)...Annual Conference on Engineering in Medicine & Biology...*

In combination, our conference records and our massive periodicals program comprise the world's foremost source of original publishing in the burgeoning field of electrotechnology.

Special library purchase plans.

IEEE's Open Order Plan (OOP) permits libraries to place an advance order to

receive and be billed for every conference record as published, or only those titles falling within any of seven subject sub-groupings. And now libraries may enter a yearly subscription and receive *all* records (about 105) at a worthwhile saving. Normally paper-bound, conference publications are specially clothbound for both subscribers and OOP customers.

Send for free catalog

If your library serves engineers or scientists involved in adapting electrical/electronics engineering knowledge to problem-solving, then you should become familiar with the full extent of IEEE's resources. They are immense.

To obtain copies of our latest conference record listing, plus details on

our subscription offer and the IEEE Open Order Plan, call R. J. Jerril at IEEE ("I-Triple-E") headquarters: (212) 705-7596. Or mail the coupon below.

THE INSTITUTE OF
ELECTRICAL AND
ELECTRONICS
ENGINEERS, INC.

Serving 220,000 members and
14,000 libraries worldwide.

IEEE Technical Activities, Attn: R. J. Jerril
345 East 47th Street, New York, N.Y. 10017

Please send me _____ copy(ies) of
your latest conference publications listing.
Include details on purchase options.
