

An essential reference book for those who need to keep abreast of electrotechnology.

IEEE Annual Combined Index

For engineers and scientists whose duties require detailed awareness of the state of the art in electrotechnology, there is no substitute for our annual Index.

In an easy-to-use single volume, the Index provides quick access to all IEEE-published papers, articles, and other communications covering every facet of electrical/electronics science and engineering. Information is accessible both by subject and by author.

Access 46,000 periodical pages.

Electrical/electronics applications are now so pervasive that there are IEEE periodicals specializing in fields of interest that might surprise you: biomedicine ... geoscience ... nuclear and plasma science ... pattern analysis ... oceanic engineering ... cybernetics.

These are the highly-cited, high-impact journals in their disciplines. There are now 46 such periodicals totaling over 46,000 pages annually.

Access 66,000 non-periodical pages.

The Index also cites all papers pre-

sented at over 100 major IEEE-sponsored conferences covering every subject held worldwide during that year. In addition, the Index includes all new IEEE Standards, IEEE Press books, IEEE technical reports and miscellaneous IEEE publications. IEEE's massive book publishing program adds up to over 66,000 pages yearly.

Over 17,500 technical items.

Over 120,000 entries.

The annual Index to IEEE Publications also contains several appendixes that provide useful bibliographic information on all indexed publications: periodicals ... special issues ... conference records and digests ... IEEE Standards and IEEE Press books. This is the information you will need in order to fully identify a complete publication or to order it from IEEE.

Our annual Index is the *only* index that covers the totality of IEEE publishing—the world's largest source of new information in electrotechnology.

How to order the IEEE Index.

The IEEE annual combined Index is available in the spring of the year following the publication year. These paperbound Indexes are now in stock:

Year	Product Number	IEEE/AIP Member	Non-member
1981 Index	JH60715	\$75.00	\$170.00
1980 Index	JH56945	\$65.00	\$120.00
1979 Index	JH53348	\$45.00	\$95.00
1978 Index	JH50088	\$35.00	\$75.00
1977 Index	JH46839	\$25.00	\$60.00

To order, please enter full title, product number and price. Members of the IEEE and AIP must include member number to claim discounted price. Make check payable to IEEE. Orders on VISA, MasterCard or American Express credit cards are accepted. (Be sure to include card name, number and expiration date.) Add \$2.00 handling charge if you wish to be billed direct. New Jersey residents please add 5% state sales tax. Mail your order to:

IEEE Service Center, Publication Sales - Dept. T
445 Hoes Lane, Piscataway, NJ 08854, U.S.A.
