

IEEE PRESS BOOKS

help you
stay current
with technology.

NEW TITLES

MODERN ACTIVE FILTER DESIGN

Edited by Rolf Schaumann, University of Minnesota, Michael A. Soderstrand, University of California, and Kenneth R. Laker, Bell Laboratories. 1981. 436 pages. ISBN — Clothbound 0-87942-147-9; Paperbound 0-87942-148-7. A Book of Selected Reprints sponsored by the IEEE Circuits and Systems Society.

Contents: Design Considerations; Second-Order Filter Sections; Design of High-Order Filters; Fabrication; Techniques for Monolithic Continuous Analog Active Filters; Techniques for Monolithic Switched-Capacitor Filters; Bibliography; Subject and Author Indexes. A total of 42 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01420	\$30.95	\$23.30
Paperbound	PP01438	—	\$15.45

IEEE Press
books help you
to learn about
important new
subject areas...
apply new methods
and new devices
in your work...
increase your
technical
"know-how."

LOW-NOISE MICROWAVE TRANSISTORS AND AMPLIFIERS

Edited by Hatsuaki Fukui, Bell Laboratories. 1981. 472 pages. ISBN — Clothbound 0-87942-155-X, Paperbound 0-87942-156-8. A Book of Selected Reprints sponsored by the IEEE Microwave Theory and Techniques Society.

Contents: Preface; Introduction; Noise Characterization and Measurements, Noise Properties of Bipolar Transistors; Noise Properties of Field-Effect Transistors, Low-Noise Amplifier Design, Practical Amplifier Techniques, Subject and Author Indexes. A total of 60 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01487	\$33.95	\$25.45
Paperbound	PP01495	—	\$16.95

GEOMETRIC THEORY OF DIFFRACTION

Edited by Robert C. Hansen, Consulting Engineer. 1981. 416 pages. ISBN — Clothbound 0-87942-149-5; Paperbound 0-87942-150-9. A Book of Selected Reprints sponsored by the IEEE Antennas and Propagation Society.

Contents: Early Papers; Canonical Problems; Applications; Geometric Theory of Diffraction and Moment Method; Subject and Author Indexes. A total of 51 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01446	\$40.95	\$30.70
Paperbound	PP01453	—	\$20.45

DIGITAL MOS INTEGRATED CIRCUITS

Edited by Mohamed I. Elmasry, University of Waterloo. 1981. 504 pages. ISBN — Clothbound 0-87942-151-7; Paperbound 0-87942-152-5. A Book of Selected Reprints sponsored by the IEEE Solid-State Circuits Council.

Contents: MOS Digital Circuit Design (Depletion Loads, Circuit Techniques, Comparison of MOS Logic Gates), Digital VLSI (Scaling-Down MOS-FETs, Processing Technologies, Novel Circuit Structures for VLSI, Circuits and Systems Design for VLSI); MOS Memory Cells and Circuits (Memory Circuits and Cells, Peripheral Circuits), MOS Digital Circuit Applications (Programmable Logic Arrays; Digital Signal Processors; Microprocessors; Static RAMs; Dynamic RAMs; ROMs, PROMs and EPROMs); Bibliography; Subject and Author Indexes. A total of 72 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01503	\$38.95	\$29.20
Paperbound	PP01511	—	\$19.45

HOW TO ORDER

Please enter full title, Order Number and price of each book. IEEE members must include member number to claim discounted price. Make check payable to IEEE (in U.S. dollars or equivalent local currency). Orders on VISA, MasterCard or American Express credit cards are accepted. Be sure to include card name, number and expiration date. Add \$2.00 handling charge if you wish IEEE to bill direct. New Jersey residents add state sales tax. Mail your order to:

IEEE Service Center, Dept. PR-A
445 Hoes Lane, Piscataway, NJ 08854,
U.S.A.

PR 102SP

COMPENDIUM OF COMMUNICATION AND BROADCAST SATELLITES: 1958 to 1980

Edited by Martin P. Brown, Jr., Communication and Broadcast Satellite Systems Committee, IEEE Aerospace and Electronic Systems Society. 1981. 392 pages. ISBN — 0-87942-153-3.

This book was published for the IEEE Aerospace and Electronic Systems Society. **Contents:** Overview (Frequency Band Allocations Before and After WARC 79, Family Tree, Stabilization Types, Launch Sites and Dates), Satellite Descriptions (International, International/Domestic, Regional, Domestic, Military, Experimental, Amateur), References.

	Order No.	Nonmember	Member
Clothbound	PC01461	\$34.95	\$26.20

3 POPULAR TITLES FROM OUR EXPANDING BACKLIST

PROTECTIVE RELAYING FOR POWER SYSTEMS

Edited by Stanley H. Horowitz, American Electric Power Service Corporation. 1980. 592 pages. A Book of Selected Reprints.

Contents: Protective Relaying Philosophy and Fundamental Considerations; Transmission Line Protection; Rotating Machinery Protection; Power Transmission Protection; Bus, Reactor, and Capacitor Protection, Relay Input Sources, Digital Relaying; Power System Performance; Subject and Author Indexes. A total of 67 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01362	\$45.95	\$34.45
Paperbound	PP01370	—	\$22.95

ADJUSTABLE SPEED AC DRIVE SYSTEMS

Edited by Bimal K. Bose, General Electric Company. 1981. 460 pages. A Book of Selected Reprints.

Contents: Introduction to AC Drives, Induction Motor Drives (Phase Controlled Converter Drives, Voltage Fed Inverter Drives, Current Fed Inverter Drives, Slip Power Controlled Drives), Synchronous Motor Drives (Current Fed Inverter Drives, Cycloconverter Controlled Drives); Bibliography; Subject and Author Indexes. A total of 50 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01404	\$35.95	\$26.95
Paperbound	PP01412	—	\$17.95

OPTICAL FIBER TECHNOLOGY, II

Edited by Charles K. Kao, International Telephone and Telegraph Corporation. 1981. 352 pages. A Book of Selected Reprints.

Contents: Introduction and Survey; Fiber Waveguide Theory, Materials and Fabrication; Measurement; Fiber Cable; Radiation Effects; Connector Splices and Couplers; Fiber Transducers; Receivers; System Design; Applications; Subject and Author Indexes. A total of 37 reprinted papers.

	Order No.	Nonmember	Member
Clothbound	PC01388	\$29.95	\$22.45
Paperbound	PP01396	—	\$14.95
