

Editorial

In a recent meeting of the IEEE Publications Board, the Centennial Issue of IEEE TRANSACTIONS ON MICROWAVE THEORY AND TECHNIQUES, published in September 1984, has been chosen as the best Centennial Issue among all the IEEE Transactions. As the winner, the MTT Society will receive a Centennial Medal and a Certificate. The Medal, Certificate, and a copy of the Centennial Issue will become a part of the Historical Exhibits, which are displayed at the annual International Microwave Symposium.

On behalf of the MTT Editorial Board, I thank Guest Editor Ted Saad and all of the contributors to the Centennial Issue for their fine work and dedicated effort. I am sure that all of you join me in congratulating Ted and the authors.
