

STARTING A NEW PROJECT? NEW JOB? IN A NEW FIELD?

How well are you coping with change?

The world is in a constant state of change and nowhere is this change more dramatic and demanding than in the engineering sciences. Even if your job hasn't changed, chances are the technology surrounding your current assignment has changed drastically in the past few years.

IEEE FINDING YOUR WAY

IS HERE!

This new online service from the Institute of Electrical and Electronics Engineers, Inc. is mounted on the CompuServe network and provides FAST, EASY, access to information on all subjects of interest to IEEE members.

All you need is a communicating terminal to access the low-cost IEEE FINDING YOUR WAY service. You will find:

The TUTORIAL DATABASE—points to specially selected publications, meetings, courses, and technical papers on your specific subject. All references in this small, highly screened database were specially chosen to help you navigate through the bewildering richness of IEEE-provided technical information.

The CATALOG SECTION—lists all IEEE Standards and all currently available conference records and USAB documents, with complete product and price information.

PLUS

ONLINE ORDERING—lets you place orders electronically for all listed publications and courses. Importantly, this includes reprints of individual articles that will be on their way to you within three days.

AND

The VIDEOLOG® GATEWAY—lets you transfer to an exciting new commercial database service, with price advantages for FINDING YOUR WAY subscribers. VideoLog® is a semiconductor components selection guide and industry news service.
