LOOK TO THE SOURCE

1986 IEEE Membership Directory lists names, current locations and titles of over 226,000 IEEE members and Affiliates (excluding students) in 137 countries. Includes telephone number when authorized.

When you want to find information of a technical nature, substantiate or research a source, or keep in touch with a former colleague, the IEEE Membership Directory names names.

Here is the directory that enables you to contact the foremost contributors, the influentials working within the disciplines we cover—in industry, business, government and academe, including:

- **Authors:** The majority of the authors of IEEE literature—past and present—now totaling over 144,000 pages annually.
- **Fellows:** Recognized for unusual distinction and important contributions in their profession—over 3,600 IEEE Fellows are listed, including their citations and other awards.
- **Award Winners:** 25 major IEEE Awards for outstanding achievement in science and technology—from their inception.

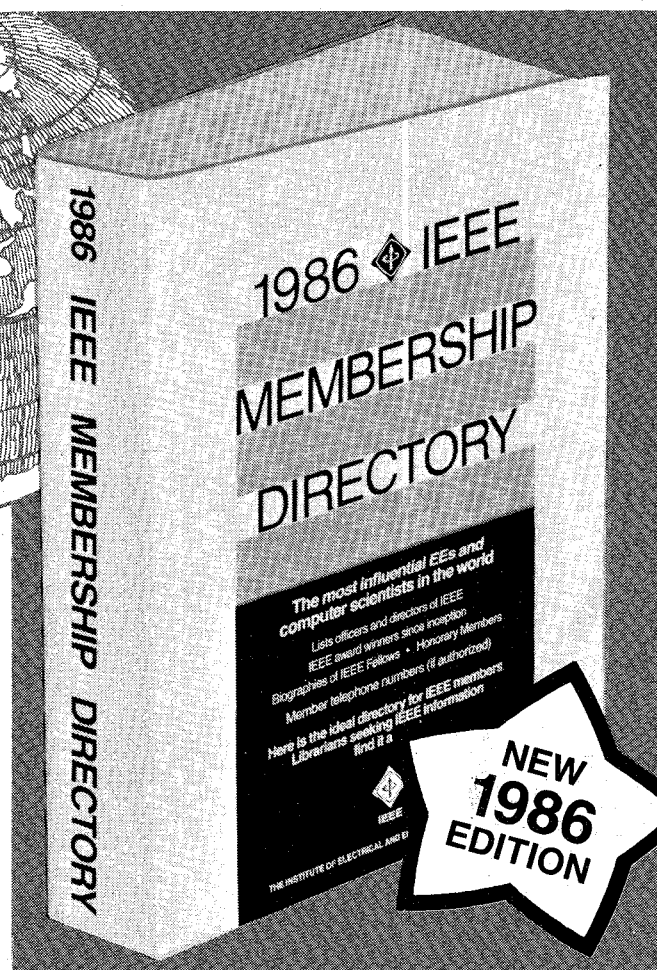

In addition to the membership roster, the Directory contains listings of IEEE past presidents, officers and directors . . . the purposes, organization and history of the IEEE . . . requirements for the attainment of various membership grades.

The Directory is the best single source for bringing yourself up to date on the *current* locations and job title of people you would like to contact for business reasons or just to "keep in touch."

Mobility within the electrical/electronics/computer science and engineering field is large, with about a 50% change in address every 18 months. Thus the 1986 Directory—with a listing cut-off date of February 28th—is accurate and as up to date as possible.
