

# 1990 IEEE GaAs IC SYMPOSIUM

NEW ORLEANS, LOUISIANA

OCTOBER 7-10, 1990

January 29, 1990 Contact: Arati Prabhakar 202-694-3145

## Executive Committee

### Symposium Chairman

Kenneth J. Sleger  
Code 6852  
Naval Research Laboratory  
4555 Overlook Avenue, S.W.  
Washington, DC 20375-5000  
(202) 767-3894

### Technical Program Chairman

Michael C. Driver  
Westinghouse Research Lab  
1310 Beulah Road  
Pittsburgh, PA 15235  
(412) 256-1873

### Technical Program Vice-Chairman

Bryant M. Welch  
GigaBit Logic, Inc.  
1908 Oak Terrace Lane  
Newbury Park, CA 91320  
(805) 499-0610, x209

### Symposium Secretary

Don D'Avanzo  
Microwave Technology Division  
Hewlett-Packard Company  
1412 Fountain Grove Parkway  
Santa Rosa, CA 95403-1788  
(707) 577-2644

### Publications Chairman

Paul R. Jay  
Bell-Northern Research  
3500 Carling Avenue, 5C20  
P.O. Box 3511, Station C  
Ottawa, Canada K1Y 4H7  
(613) 763-2363

### Registration Chairman/Treasurer

Allen Poddell  
Pacific Monolithics, Inc.  
245 Santa Ana Court  
Sunnyvale, CA 94086  
(408) 732-8000

### Publicity Chairman

Arati Prabhakar  
DARPA  
1400 Wilson Boulevard  
Arlington, VA 22209-2308  
(202) 694-3145

### Local Arrangements Chairman Donald C. Larson

TriQuint Semiconductor  
Tektronix Industrial Park  
Group 700 - P.O. Box 4935  
Beaverton, OR 97076  
(503) 644-3535, x 4046

### Symposium Headquarters Sheraton New Orleans Hotel 500 Canal Street New Orleans, LA 70130 (504) 525-2500

## PAPERS SOUGHT ON GaAs TECHNOLOGY, APPLICATIONS

"Gallium Arsenide - Integrated Circuits and Manufacturing" describes the theme of the 1990 IEEE Gallium Arsenide Integrated Circuit Conference to be held in New Orleans, October 7-10, 1990. The conference is expanding its focus this year to address the emerging applications and manufacturing issues associated with gallium arsenide (GaAs) ICs, as well as its traditional core of digital and microwave circuit design and fabrication.

Papers are sought on recent advances in digital circuits, microwave circuits, and manufacturing technology using gallium arsenide and closely related III-V compounds. Specific areas of interest include: design, fabrication, testing and analysis; military and commercial systems applications; packaging, assembly and modelling; and manufacturability improvements.

Michael C. Driver, technical program chairman of the 1990 IEEE Gallium Arsenide Integrated Circuit Conference, is actively soliciting abstracts of proposed papers on the above subjects. To submit, send 30 copies of a one-page abstract and any supporting material (optional, 2-page max.) to:

Michael C. Driver  
Westinghouse Science and Technology Center  
1310 Beulah Road  
Pittsburgh, PA 15235 USA  
412-256-1873 (phone)  
412-256-1348 (fax)

Deadline for submission of abstracts is May 4, 1990. This year's short course will focus on advanced gallium arsenide integrated circuit technologies.

To receive further mailings and subsequent registration information for the conference, write to: Suzanne Kuntz, Courtesy Associates, Suite 300, 655 15th Street NW, Washington DC 20005.
