

## **Session A: (Joint with the MMIC Symposium)**

### **T/R Modules**

**Chairman: H. Huang**

Comsat Laboratories  
Clarksburg, MD

This session contains four technical papers dealing with MMIC T/R modules. The first paper is an invited paper which describes European MMIC activities. The second paper describes MMIC technology & transportability among several firms. The third paper discusses a multifunction chip set for receivers. The final paper describes a single chip 2–20 CHz T/R module.

**8:00 a.m.–9:30 a.m., Tuesday, May 8, 1990  
West Ballroom A, B**
